

September 5, 2023, Troy Texas: Anderton Castings is pleased to now offer our customers both **Automatic Robot Mig Welding** and **Friction Stir Welding** technology.

Benefits of **Friction Stir Welding** are; welding of all aluminum alloys and including welding of dissimilar materials, high mechanical resistance, no leakage, excellent thermal and electrical conduction, cold welding and green process to simplify complex assemblies.

Friction Stir Welding is especially attractive for parts that require water cooling.

Benefits of **MIG (Metal Inert Gas) Welding** are; join dissimilar metals, with minor loss of alloying elements.
